Last Updated: June 12, 2025

These Alchemy Bridge Developer Supplemental Terms (the "**Supplemental Terms**") govern your access to and use of the bridge functionality made available by Alchemy Insights, Inc. ("**Alchemy**," "**we**," "**us**," or "**our**") through <https://www.bridge.alchemy.com>.

BY CLICKING ON A BUTTON OR CHECKBOX TO ACCEPT THESE SUPPLEMENTAL TERMS, ACCESSING OR USING ANY API OFFERED THROUGH THE BRIDGE SERVICES, AND/OR OTHERWISE USING THE BRIDGE SERVICES OR PROVIDING THE BRIDGE SERVICES TO YOUR END USERS, YOU AGREE TO BE BOUND BY THIS AGREEMENT AND ALL OF THE TERMS INCORPORATED HEREIN.

THE BRIDGE SERVICES PROVIDE A USER INTERFACE THAT ENABLES END USERS TO INTERACT WITH THIRD-PARTY PROVIDERS. WE ARE NOT A BROKER, PAYMENT PROCESSOR, FINANCIAL INSTITUTION, OR CREDITOR. YOUR USE AND OFFERING OF THE BRIDGE SERVICES IS AT YOUR AND YOUR END USERS' RISK.

BY USING THE BRIDGE SERVICES OR PROVIDING THE BRIDGE SERVICES TO YOUR END USERS, YOU AGREE TO BE BOUND BY ALCHEMY'S TERMS OF SERVICE FOUND AT <https://www.alchemy.com/policies/terms> AND ALCHEMY'S PRIVACY POLICY FOUND AT <https://www.alchemy.com/terms-conditions/privacy-policy> (BOTH OF WHICH ARE INCORPORATED BY REFERENCE HEREIN); AND THESE SUPPLEMENTAL TERMS. IF THERE IS ANY CONFLICT BETWEEN THE TERMS OF SERVICE AND THESE SUPPLEMENTAL TERMS, THE SUPPLEMENTAL TERMS WILL PREVAIL. IF YOU DO NOT AGREE TO THE TERMS OR SUPPLEMENTAL TERMS, YOU MUST NOT USE THE BRIDGE SERVICES OR PROVIDE THE BRIDGE SERVICES TO YOUR END USERS.

For the sake of clarity, these Supplemental Terms apply to developers who use the Bridge Services to integrate, embed, or offer cross-chain bridging functionality within their own applications or platforms (collectively, "**you**" or "**your**") to provide them to End Users. Any direct use of the Bridge Services for cross-chain bridging (including by developers) is governed by the Alchemy Bridge End User Supplemental Terms.

Definitions

"**Bridge Services**" means any product, interface, dashboard API, or functionality provided by Alchemy that enables or facilitates cross-chain bridging of digital assets.

"**Developer**" means any entity or individual that integrates, embeds, or offers the Bridge Services from its own application or platform.

"**End User**" means any individual who accesses or uses the Bridge Services through a Developer integration.

"**Third-Party Provider**" means any external infrastructure or technology provider integrated by Alchemy into the Bridge Services.

Use of the Bridge Services

The Bridge Services provide a user interface that shows underlying Third-Party Providers such as protocols or smart contracts that enable cross-chain transactions. Alchemy does not recommend or endorse any particular Third-Party Provider. You or your End Users decide which Third-Party Provider to use for bridging assets, including the relevant prices and/or exchange rate corresponding to the assets on each relevant chain.

- You must not white-label or misrepresent the Bridge Services as your own proprietary infrastructure.

- You must not use or provide the Bridge Services for any fraud or other misconduct.
- You must not use or provide the Bridge Services in violation of any applicable law or regulation, including anti-money laundering, sanctions, or securities laws.
- You are solely responsible for ensuring that your use or provision of the Bridge Services and your handling of End User funds and data comply with applicable law, including consumer protection, anti-money laundering, sanctions, or securities laws.

- You must not interfere with or disrupt the Bridge Services or any connected blockchain network or blockchain protocol.
- You must not use or provide the Bridge Services in a way that infringes upon the rights of others.
- You must not bypass or circumvent (or attempt to bypass or circumvent) security features or usage limitations connected to the Bridge Services.
- You must not reverse engineer, decompile, disassemble, or otherwise attempt to extract source code or algorithms underlying the Bridge Services.
- You must not sell, rent, or lease access to the Bridge Services without our permission.
- You must not use or provide the Bridge Services for the purpose of building a competing product.

Risks include, but are not limited to, loss of funds due to smart contract failure or exploit, failed or delayed transactions, changes in protocol behavior, reliance on unaffiliated third-party infrastructure and legal or regulatory changes.
- Alchemy does not store or have access to or control over your or End Users' private keys, digital wallets, digital assets, or other property.
- Alchemy reserves the right in its sole discretion to modify, suspend, or discontinue the Bridge Services, or any features or parts thereof, whether temporarily or permanently, at any time with or without notice to you in our sole discretion.

You agree that the legal requirements pertaining to blockchain technologies and digital assets generally are uncertain, and you have conducted an independent investigation of such potentially applicable legal requirements and the resulting risks and uncertainties, including the risk that one or more governmental entities or other persons may assert that any digital assets or cryptographic tokens may constitute securities under applicable legal requirements. The Bridge Services enable transfers of digital assets between blockchain networks using non-custodial, decentralized smart contract infrastructure. Alchemy does not issue, buy, sell, transfer or access user funds or digital assets, nor does Alchemy facilitate or make any recommendations related to, whether directly or indirectly, the issuance, purchase, or sale of any digital assets. Transactions are initiated, executed and finalized directly by users through interaction with public smart contracts. The Bridge Services may route transactions through or depend on Third-Party Providers for execution, relaying, liquidity or settlement. The Indemnified Party will notify you in writing of the Claim, and reasonably cooperate with you in the defense and settlement of the Claim.
