Last Updated: July 27, 2026

These Chain Partner Terms of Service (the "Chain Partner Terms") govern the development and related collaboration described in one or more order forms referencing these Terms (each, an "Order Form"). These Terms are an agreement between Alchemy Insights, Inc. ("Alchemy," "we," "us," or "our") and the entity that accepts these Terms ("Chain Partner," "you," or "your").

BY CLICKING A BUTTON OR CHECKBOX TO ACCEPT OR AGREE TO THESE TERMS, OR BY ENTERING INTO AN ORDER FORM THAT REFERENCES THESE TERMS, YOU AGREE TO BE BOUND BY THESE TERMS.

1. Order Forms; Structure

1.1 Order Forms. Each Order Form will incorporate these Terms by reference and will be part of the agreement between the parties.

1.2 Order Form Controls for Business Terms. If there is a conflict between an Order Form and these Terms, the Order Form will control only for the subject matter of that Order Form.

1.3 Definitions. Capitalized terms used but not defined in an Order Form have the meanings in these Terms.

2. The Collaboration

2.1 Development Collaboration. The parties will carry out the development activities described in the applicable Order Form (the "Development Collaboration"). Subject to your timely payment of any applicable fees and as set forth in the Order Form, Alchemy will use commercially reasonable efforts to develop APIs and other software (the "Alchemy Developments") to enable developers to build applications on your network (the "Network") using the Alchemy services.

2.2 Chain Partner Inputs. You will provide Alchemy with the Network node software under the license terms specified in the Order Form so that Alchemy can develop the Alchemy Developments. The Network node software must meet Alchemy's Technical Requirements for Network Partners available at <https://legal.alchemy.com>. During the Term, you will also provide other data and information about the Network that Alchemy reasonably needs to support developers' use of the Alchemy services.

2.3 Cooperation. You will cooperate with Alchemy to fix errors or problems in your software (including the Network node software) to facilitate the integration or interoperability of your software with the Alchemy Developments.

2.4 Marketing Collaboration. Each party may include the other party's name and logo in press releases and marketing materials related to the Development Collaboration, subject to Section 5.1 (Trademark License) and the applicable Order Form. Alchemy may reference the Collaboration to developers for outreach, pre-sales engagement, and marketing purposes.

2.5 Dependencies. Alchemy's obligations with respect to development and support collaboration hereunder are contingent upon Chain Partner satisfying each of the following dependencies (collectively, the "Chain Partner Dependencies"):

2.5.1 Network Node. Chain Partner will maintain a working, stable, and up-to-date Network node that meets Alchemy's standard technical requirements, as published and updated from time to time at <https://legal.alchemy.com>;

2.5.2 License Compliance. The Network node software will remain in compliance with all applicable Network

license terms and conditions;

2.5.3 Engineering Support. Chain Partner will provide active engineering support from the personnel responsible for building the Network, including participation in a dedicated shared Slack channel with daily engagement from Chain Partner leadership and core engineering staff; and

2.5.4 Advance Notice. Chain Partner will provide Alchemy with no less than thirty (30) days' advance written notice, via the dedicated Slack channel, of any hard forks, security updates, or other required node upgrades.

To the extent Chain Partner fails to satisfy any of the Chain Partner Dependencies, Alchemy may suspend its corresponding development and support obligations until such dependency is remediated, and Alchemy will not be liable for any resulting delays or failures in performance.

3. Payments

3.1 Fees. You will pay Alchemy the fees (if any) set forth in the applicable Order Form.

3.2 Late Payments; Suspension. If you fail to pay any amount when due, Alchemy may:
(a) charge a late fee at 1.5% per month (or the highest rate permitted by law, if lower); and (b) suspend services and performance under these Chain Partner Terms until all past-due amounts are paid.

3.3 Collection Costs. You will reimburse Alchemy for all reasonable costs and expenses incurred to collect overdue amounts, including reasonable attorneys' fees.

4. Intellectual Property

4.1 Background IP. Each party retains all intellectual property rights it owned or controlled before the Effective Date.

4.2 Solely Created Technology. Each party solely owns the intellectual property it develops independently under these Chain Partner Terms. The other party receives no rights in that intellectual property except as expressly stated in these Chain Partner Terms or the applicable Order Form.

4.3 Jointly Created Technology. The parties do not expect to create jointly developed technology under these Chain Partner Terms. If the parties jointly conceive inventions while performing under these Chain Partner Terms, the parties will agree in writing on an ownership and licensing model for any applicable intellectual property rights.

4.4 Improvements; Assignment. Notwithstanding Section 4.3:

4.4.1 Any modifications or improvements to Chain Partner intellectual property (excluding the Alchemy Developments) will belong solely to Chain Partner, and Alchemy assigns to Chain Partner any rights it may have in those modifications or improvements.

4.4.2 Any modifications or improvements to Alchemy's proprietary software and other technology (collectively, the "Alchemy Technology"), the Alchemy services, or the Alchemy Developments will belong solely to Alchemy, and Chain Partner assigns to Alchemy any rights it may have in those modifications or improvements.

Each party will execute documents reasonably requested by the other party to evidence any such assignment.

4.5 Feedback. If either party provides comments or suggestions about the other party's products or services ("Feedback"), the providing party grants the receiving party a worldwide, non-exclusive, perpetual, irrevocable,

royalty-free, transferable, sublicensable license to use the Feedback for any purpose without restriction or obligation.

4.6 No Reverse Engineering. You will not reverse engineer, disassemble, or decompile Alchemy Technology or the Alchemy Developments. Alchemy will not reverse engineer, disassemble, or decompile Chain Partner technology provided under these Chain Partner Terms.

4.7 No Other Licenses. Except for the licenses expressly granted in these Chain Partner Terms or an Order Form, neither party grants the other any rights or licenses to its intellectual property.

5. Trademarks

5.1 Trademark License. Subject to these Chain Partner Terms, each party ("Licensor") grants the other party ("Licensee") a limited, non-exclusive, royalty-free license during the Term to reproduce and display Licensor's name, logo, brand, authorized trademark or other indicia of source solely as approved in writing by Licensor ("collectively, "Authorized Trademarks") and solely for marketing the Collaboration and approved proprietary software interfaces.

5.2 Guidelines; Notices. Licensee will use Authorized Trademarks in accordance with Licensor's trademark guidelines and instructions (as updated from time to time). Licensee will reproduce all proprietary rights notices on copies it makes and will not remove, alter, or obscure those notices.

5.3 Changes and Removal. At Licensor's request, Licensee will promptly modify or discontinue any use of Authorized Trademarks.

6. Confidentiality

6.1 Confidential Information. "Confidential Information" means any business or technical information disclosed by one party to the other that is marked confidential/proprietary when disclosed in writing, identified as confidential/proprietary when disclosed orally (and summarized in writing within thirty (30) days), or that a reasonable person would understand to be confidential under the circumstances. The terms and conditions of any negotiated agreement, the terms of any Order Form, non-public elements of each party's technology and product offerings are Confidential Information whether or not marked.

6.2 Exclusions. Confidential Information does not include information that: (a) the public knows or comes to know through no fault of the receiving party; (b) the receiving party rightfully knew without confidentiality obligations at the time of disclosure; (c) the receiving party independently developed prior to agreeing to these Chain Partner Terms; or (d) was rightfully obtained from a third party without restriction on use or disclosure.

6.3 Use and Disclosure Restrictions. Each party will use the other party's Confidential Information solely to perform its obligations under these Chain Partner Terms and will not disclose it to any third party except to its employees, agents, and subcontractors ("Representatives") who need to know such Confidential Information to perform under these Chain Partner Terms, provided each Representative is bound by written confidentiality obligations at least as protective as these Chain Partner Terms. Each party is responsible for all acts and omissions of its Representatives.

6.4 Standard of Care; Legal Process. Each party will use all reasonable efforts to protect the other party's Confidential Information, and in no event less than the efforts it uses to protect its own proprietary information of similar importance. A party may disclose the other party's Confidential Information if required by court order or governmental request, provided the disclosing party will promptly notify the other party (if legally permitted) so it may contest the disclosure.

6.5 Injunctive Relief. Each party acknowledges that a breach of this Section 6 may cause irreparable harm for which monetary damages are inadequate, and that injunctive relief is an appropriate remedy.

7. Term and Termination

7.1 Term. These Terms take effect on the date specified as the "Effective Date" in the first Order Form (or, if no date is specified, the date you accept these Chain Partner Terms) and remain in effect for as long as any Order Form is active, unless a party terminates earlier under these Chain Partner Terms. Unless stated otherwise in the Order Form, the Order Form automatically renews for successive one year periods until either party provides written notice of non-renewal before the end of the then-current term.

7.2 Non-Renewal; Payment Acceleration. If you provide a notice of non-renewal, all outstanding payment obligations become immediately due and payable as of the date of that notice.

7.3 Termination for Cause. Either party may terminate these Chain Partner Terms for cause upon thirty (30) days' written notice describing the breach in reasonable detail. The terminating party will withdraw its termination notice if the other party cures the breach within the thirty (30) day period.
