

Alchemy Subprocessors

Alchemy uses third-party Subprocessors to Process Personal Data as set forth in Alchemy's Data Protection Addendum located at <https://www.alchemy.com/policies/dpa> ("DPA"). More information about Alchemy's use of Subprocessors can be found in the DPA, and capitalized terms on this page are defined in the DPA. For each Subprocessor below, the Processing of Personal Data will occur for the duration that Subscriber uses the Service, subject to specific retention periods for each Subprocessor.

Due to the nature of our business, our third-party service provider needs may change from time to time, and we may add or deprecate service providers on an ongoing basis. We will periodically update this page to reflect such changes. To subscribe to receive email notifications of any updates to Alchemy's Subprocessor list, please fill out [this form](#).

Name	Subject Matter	Nature & Purpose	Duration	Location
Amazon Web Services, Inc.	Personal Data contained in API requests & logs	Cloud infrastructure services	Retained until deletion requested	410 Terry Avenue North, Seattle, WA 98109, USA
